Create your own ecosystem! Draw an ecosystem below, include and label both living and non-living things. think about how they interact with each other? Have fun and be as silly and creative as you want!

Fill in the columns below

Living Things	Non-Living Things

Write a brief description of how your ecosystem interacts with each other. Examples: What do the animals eat? Where do they get water? What do they use for shelter? What is the weather like? What kind of plants can grow there?
