

Name _____

Create-a-Creature!

Use your imagination to create your own creature or plant! What environment does your creature live in? What **external structures** does it have and how do they **function** to help your creature survive? You can make up all the external structures or take parts from different animals. Draw a picture of your creature below and label the external structures. Have fun and be as creative and silly as you want!

Fill in the blanks

The name of my creature is _____ . My creature lives in _____ . The coolest thing about my creature is _____ .
